CONNECTING WITH THE ANGELIC KINGDOM

I'm sure you've heard the phrases, "Don't step on any toes", and, "Don't upset the apple cart". The last thing I want to do is step on someone's toes, believe me. However, when we entered the Age of Aquarius, we left behind the trend of separation. Holistic medicine, for example, is all about bringing together healing modalities from all over the world, hundreds and thousands of years old, to help someone in need. So having said all this, does it make sense that we need to start to bring religion and science together? Up to now we've had the proverbial Grand Canyon spanning across the field of science and the

field of

realms, there are most certainly challenges: there is communication...and then there is COMMUNICATION.

Sometimes, in order to make a huge difference in someone's life as well as our own, we need to be clear and focused about what we want to see happen. Now I'm not saying a heart-felt prayer can't move mountains...it can. What I AM saying is that, many times, there are obstacles that can "mess with our transmission". In other words, we are now working within that middle ground between what we call science, and what we call religion. If you just bear with me for a moment, I think you will learn something very powerful that you can begin to use in your life, starting as early as next week!

I WAS TOUCHED BY
AN ANGEL.....LITERALLY!

Years ago I took some training with an amazing healer named Peter Inmann. When working with a client or seminar group Peter would raise his vibration, and the Angels would lower theirs, and they would meet in the middle. And that's when the fun would start. One day in class he invited the Angels into the room. Everyone could feel it...except me. Feeling a little left out, I told Peter. He came over and, without touching ran his hands over my shoulders and down to my hands. Instantly my arms became extremely hot and sweat started pouring off my forearms. I'd never felt anything like that before.

We've developed a special disc called the ANGEL Disc. Within the crystals of this disc have been imprinted various frequencies that eliminate inter-realm distortion and interference. Sometimes this interference comes from electromagnetic or geomagnetic influences. Other times it can be from your own conscious or subconscious mind. And many times it can actually come from various outside sources we shall call them. Regardless, much the same way linebackers in football block various attackers, frequencies from various gems, flower essences, commands, and subtle energy codes are used to ensure a clear and positive connection. The disc is simply held in your left hand during your meditation or prayer session. We've had clients tell us that they noticed a very deep, powerful, meaningful connection the very first time they ever used the disc. The analogy that always comes to mind for me is when I am trying to talk to someone on my cell phone and the connection is garbled. After hanging up and redialing the quality is much better. If you enjoy receiving special messages and guidance from the Angelic Realm as I do, order an Angel Disc. You will be impressed!

BOTTOM LINE

Step up and take charge of your life. Do something proactive. Biotheric Technology offers the tools and training necessary to make corrections to Psychological Reversal. The technique is easy to learn, simple, safe, and effective.

Take advantage of this wonderful opportunity. When was the last time you
gave your Soul a gift?
