PSYCHOLOGICAL REVERSAL

You **JUST MIGHT** have **psychological Reversal (PR)** if you:

1. have any kind of procrastination, addiction, depression or chronic stress
2. have chronic physical symptoms, prolonged illnesses or delayed healing and recovery
3. have repetitive blocks to progress in any area of your life
4. have an inability to find full enjoyment, peace and fulfillment in life
5. keep putting off something you really want to do
6. do not do things that you know could be beneficial
7. do things that get you in trouble at home or work
8. Feel stuck or blocked

Sometimes I think I'm my own worst enemy! The wrong choices looks great, and the right choice looks wrong!

Here are some common quotes from various sources:

- ▶ PR works subconsciously like an undertow that drags people into the waters of "bad luck"
- ▶ With PR, even happy, successful folks tend to return to an underlying state of unhappiness or bad luck because it just feels more normal to them

Take This Simple Quiz and See How You Do

If you find yourself resonating with many of these, you may want to seriously consider undergoing our PSY REV Clearing Protocol. It just might be the most important **GOOD** thing you've ever done for yourself:

1. You've noticed repeating life patterns
2. You suspect that you are unlucky
3. You tend to have a pronounced resistance to **CHANGE!**
