## BIOTHERIC SUFFERING

An amazing disc...

All of the Biotheric Discs work within the subtle energy field around the body. But this field has various densities and layers. If you read 10 books about the various descriptions you will most likely get 10 different names for these various layers. For the most part, the closest energy field to

the body is the etheric field. Sometimes this field can be broken down further into the physical-

etheric and the etheric-emotional. Biotheric discs work on various levels, sometimes multiple levels simultaneously. There is approximately 14 Biotheric Discs that work solely with the higher spiritual levels of the body. The latest disc we've created has not yet been made available on the Biotheric.com website. This disc is called Biotheric SUFFERING. I use all of the discs as needed, of course, and, obviously everyone is unique. However, the 150 Biotheric discs have been

constructed to work with just about everyone. In other words, on any given day there will always be one or more discs from which the average guy or gal on the street would benefit in one way or another. It should be obvious, for instance, if a person has absolutely no issues with their

knees, then they would gain nothing from using the Biotheric KNEE disc, which clears various

blocks and toxic frequencies from the Biotheric Field around the knee joint. But what about a person's soul? Hmm, now there's a thought. Of all of the spiritual oriented discs, I personally had profound changes using the disc for suffering. I chose to wear the disc as a necklace 24/7. On the third day I started noticing that things that used to bother me no longer did. I noticed judgements that I'd had my whole life had simply vanished. I could see the

## DOES SUFFERING HAVE TO BE PART OF LIFE?

I'm a little too young to have been an actual hippie. But the hippie movement gave us some wise things to think about, such as, "Question Everything". I believe this. And I especially like the word 'everything'. It doesn't say, question everything, except religion, or this, or that, bla bla bla. I've read that we have to suffer to learn lessons. I've read in order to appreciate the GOOD things, we need the BAD stuff as a contrast. Should we question this, or would that somehow be blasphemy? Just wondering.....

REASON behind why people were the way they were. I've noticed a calmness that I've never felt before. Because this disc works on the spiritual level, as opposed to the mental etheric or emotional etheric levels, the information that the disc imprints into the Biotheric Field is read only by the Superconscious mind. This makes it impossible for those pesky little sabotage patterns we all have to interfere in the good outcomes that this disc has to offer. Regardless what theory you choose to believe about why we

have suffering, when you begin to see the world through non-judgmental eyes, it's pretty hard to get stressed about things. One particular theory that's one of my favorites usually causes people to rebel pretty quickly when I share it with them. They usually tell me I'm way off. What they don't realize is, their emotional push-back simply tells me there is something going on deep within their psyche. What I believe is, that we cannot experience suffering unless we have, on some level, given permission to

experience it. It would be 100% impossible to "talk" anyone into believing this. It is way too far down the rabbit hole to pull it out. But this disc bypasses the emotional and subconscious levels and goes straight to the chairman of the board. It's really quite amazing. All of the spiritually oriented discs work this way. For a limited time, anyone purchasing one or more discs from the website, [www.Biotheric.com](http://www.Biotheric.com) will receive a Biotheric SUFFERING Disc as a gift, from one Soul to another.

Take advantage of this wonderful opportunity. When was the last time you gave your Soul a gift?
